

KRIMA TRIVEDI

Software engineer

Profile

AI Engineer and Python Backend Developer with nearly 3 years of experience specializing in scalable backend systems and GenAI applications. Expert in building production-ready RAG pipelines, Multi-Agent systems, and intelligent automation using Python (FastAPI/Django), LLMs (OpenAI, Claude, Llama), and Vector Databases (Pinecone). Proven track record of optimizing AI workflows to reduce latency and improve retrieval accuracy.

Work Experience

2026

-

Openxcell – AI Development Company

Backend AI engineer

- Engineered production-grade RAG pipelines using FastAPI and Pinecone, improving contextual data retrieval accuracy by 35% and reducing manual search time.
- Developed AI-powered backend services supporting 1,000+ concurrent requests, ensuring high availability through modular microservices architecture.
- Built and deployed GenAI-driven automation tools that reduced repetitive internal operational tasks by 40%.
- Collaborated with cross-functional teams to integrate AI capabilities into existing enterprise software using Agile/Scrum methodologies.

2026

-

2023

Intellial Solutions Pvt. Ltd. – Ahmedabad

Full Stack Developer

- Architected and maintained enterprise web applications using Django and PostgreSQL, achieving 99.9% system uptime.
- Automated business workflows by building scalable backend APIs, resulting in a 30% increase in operational efficiency.
- Optimized complex PostgreSQL queries, reducing database load and improving application page-load speeds by 25%.
- Designed reusable API modules and documentation that accelerated feature delivery cycles.
- Supported the transition to AI-enhanced search by implementing semantic retrieval features using Python and RAG principles.

Projects

AI Medical Scribe

Utilized NLP and LLM processing to automate SOAP note generation, reducing physician documentation time by an estimated 5 hours/week.

AI Business Analytics Platform

Built an AI-driven analytics platform capable of generating automated business insights and analytical summaries using intelligent data-processing workflows.

Ahmedabad

Education

Bachelor of Engineering

L.J.I.E.T

2018

Technical Skills

- AI/Machine Learning:** Generative AI, LLMs, RAG, Prompt Engineering, NLP, Hugging Face, OpenAI APIs.
- Agentic AI:** Multi-Agent Systems, Task Orchestration.
- Backend & Cloud:** Python, FastAPI, Django, REST APIs, Microservices, Docker, Git, Azure
- Databases:** PostgreSQL, SQL, Pinecone,, ChromaDB.
- Frontend & Tools:** AngularJS, Streamlit, HTML5, CSS3.
